

Boris Covic

Senior Front-End Developer

Profile

I work as a Frontend Developer for about 6 years now.

Highly interested in building scalable, maintainable software with high-quality code and on time delivery. The main reason why I am good at it is because I'm a passionate learner, always seeking for interesting and challenging work and most of all I care about my customer's interest.

Notice:

I don't have finished college yet. And I need VISA support to relocate from Bosnia and Herzegovina / Serbia.

Employment History

Front-End Developer at Zojax

November 2018 – Present

Freelance project

As a full-time Web Developer at Zojax I have worked as a part of the development team that coded various designs and built modern, responsive websites and apps.

- Developed code for Shadowboxes, Slider Carousals, Tickers, Rotating Headers, Validation and JS animations.
- Created and implemented a custom CSS grid system, with CSS media queries for mobile responsiveness.
- Utilized HTML, CSS, JavaScript, SASS, NPM, Grunt and Git for e-commerce site development.
- Coordinated with the team of UX designers to create new Web Content Management System

Environment: HTML5, CSS3, Twitter Bootstrap 4, JavaScript, jQuery, Django templates

Primary tasks were making Custom CMS templates and static markup pages.

Team Lead Front-End Developer at Lovappy

January 2017 – September 2018

Freelance project

This is a company where I worked only 5 hours per week on issues such as how to resolve bugs and support the Front-End team if it is necessary.

Like a lead developer, I did more than 90% of the website.

UI/UX design

Responsive(mobile and tablet devices)

Functionality like a: custom mobile menu, Filter to show details about certain users, include real data from the backend(rest API).
